Survey Dates. 08.07.2016 – 19.07.2016

Average Speed Limit Achieved. 11.68 MPH

Table one outlines the number of vehicles sticking to the posted speed limit of 20mph and the number of offending vehicles.

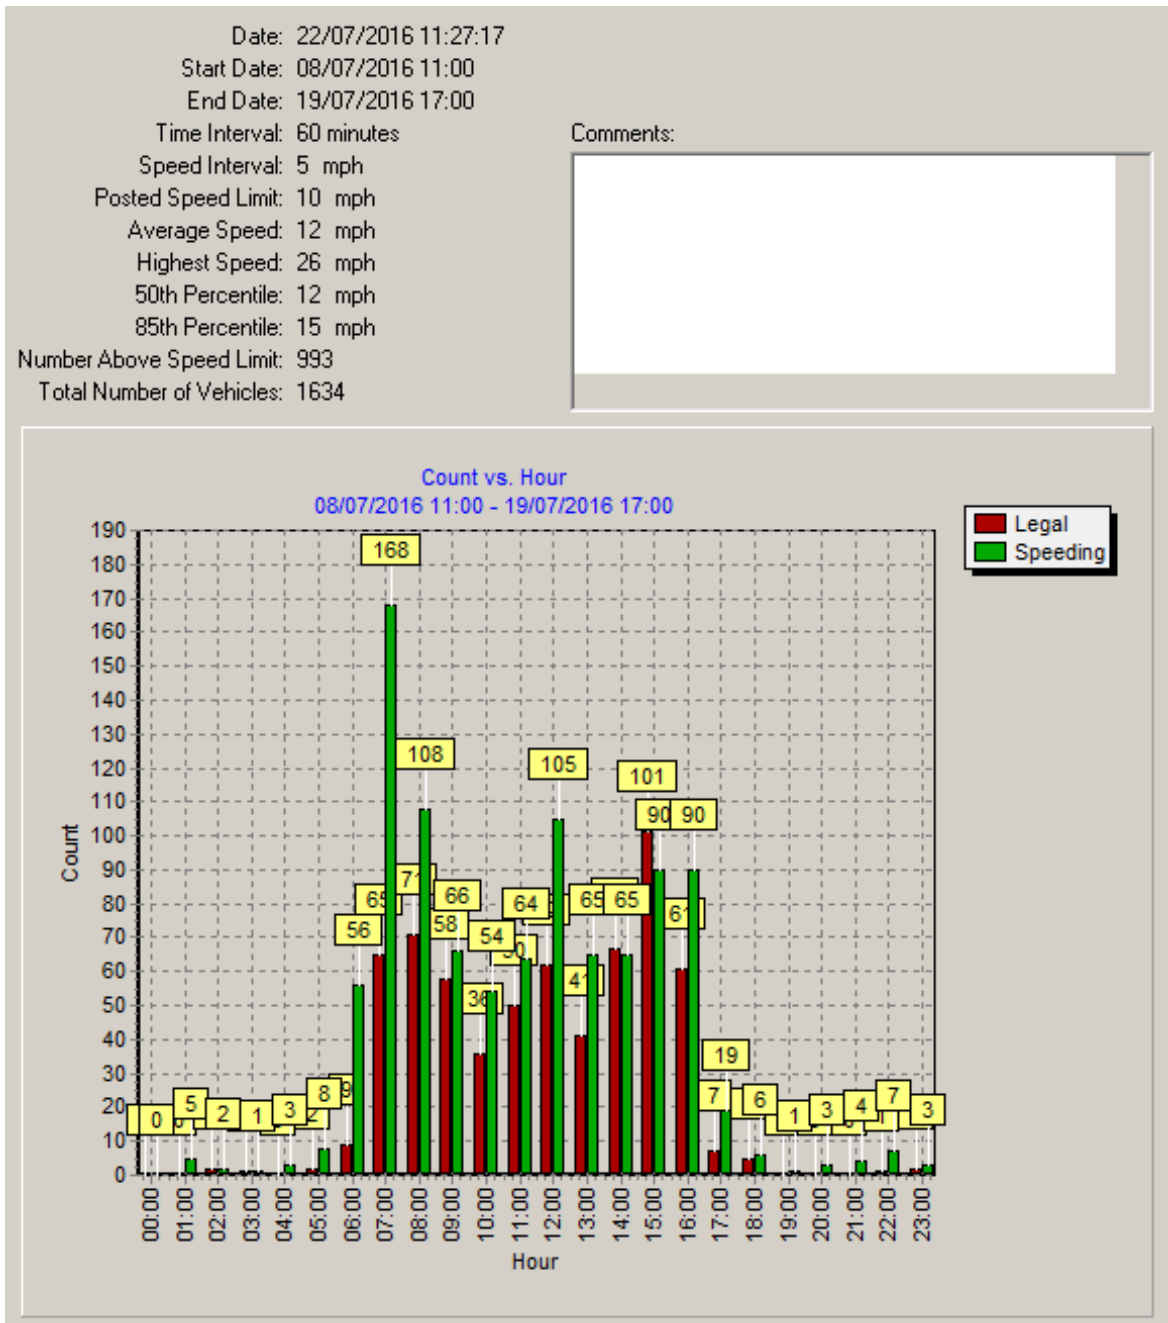

Table two shows the number of vehicles passing through the SDB-18's view per hour.

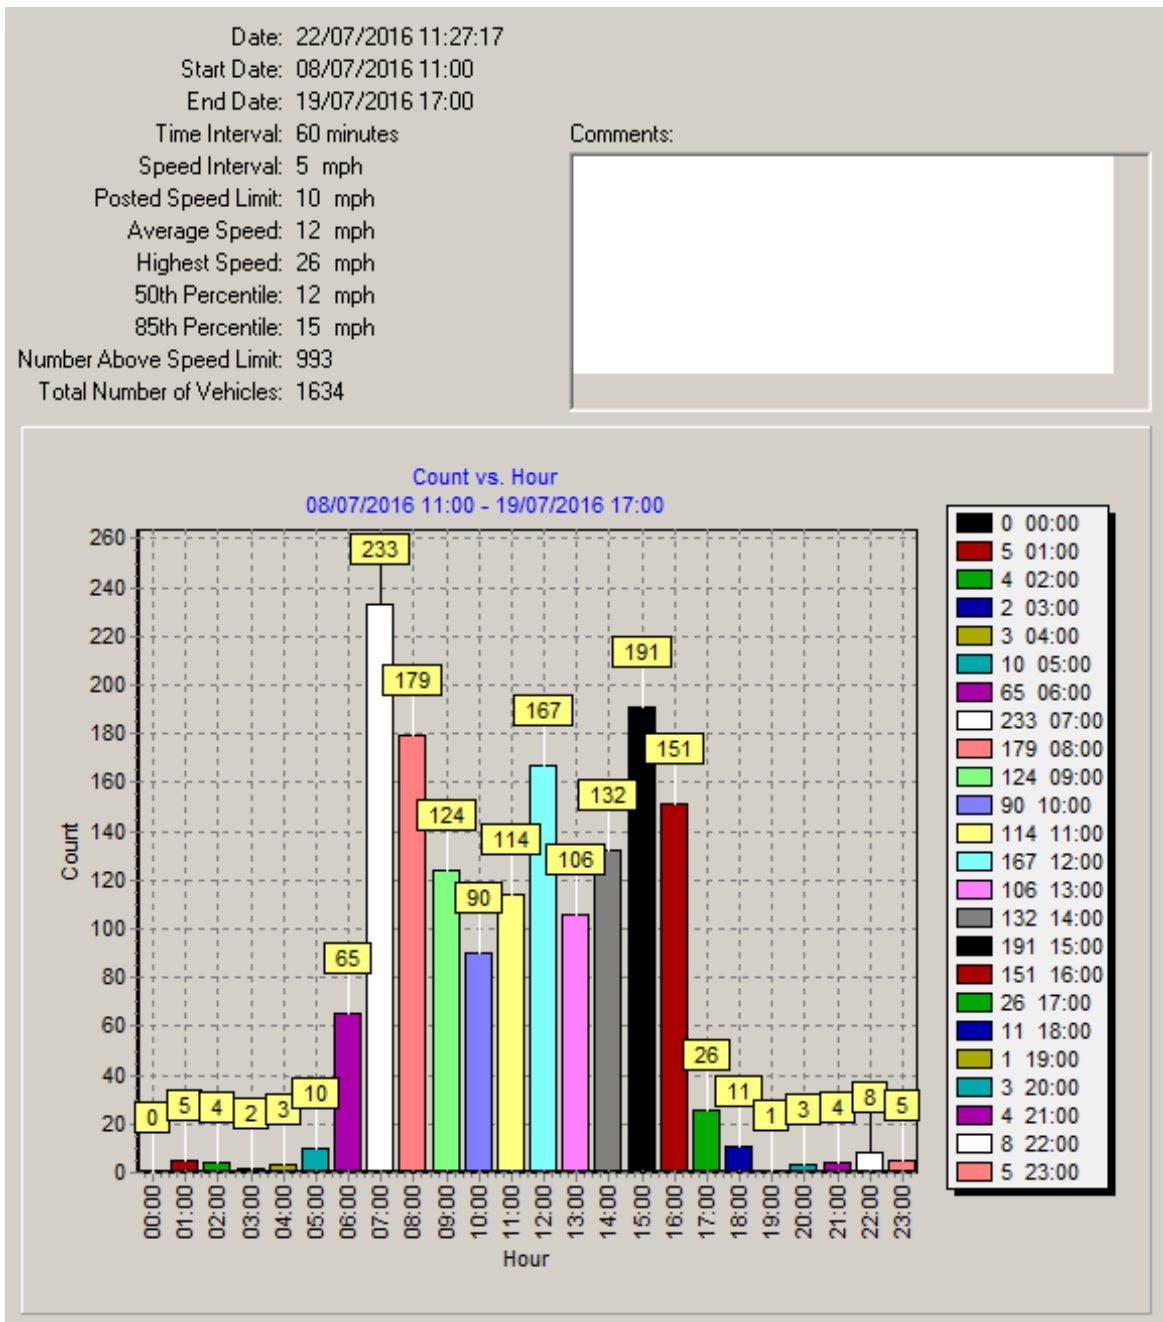

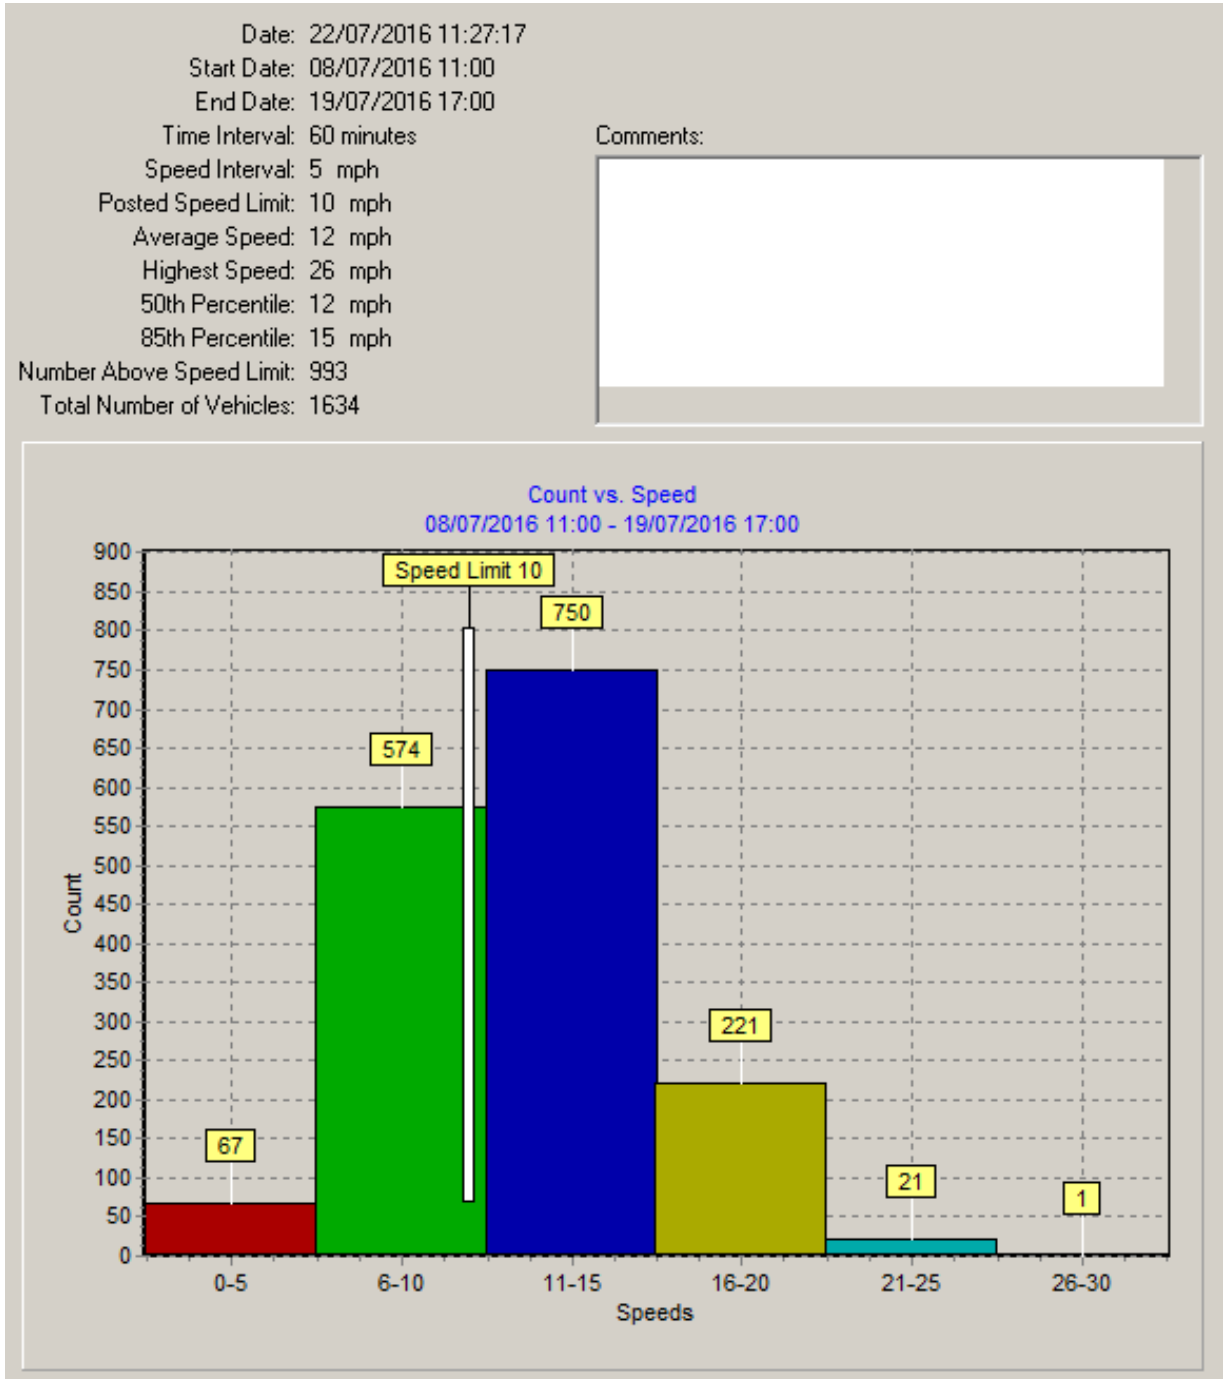

Table Three shows the Vehicle Count vs Speed of vehicles.

When you open the Microsoft Excel Spread sheet

Towards the bottom left hand corner, there are three tabs.

Log file - This is each individual speed, time and date.

Table File - This puts the speeds in to categories of 0-15mph, 16-20mph and 21+ mph and the total amount of passing traffic per hour.

Traffic Speed Survey - This is a summary of the report.
